

Econo-Spray® 5 mold release agent No. 41116T

- Dry film lube
- No methylene chloride
- No Chlorofluorocarbons (CFC's)
- Contains PTFE

Econo-Spray(R) 5 contains micron-size particles which are extremely frictionless. When applied, it will not pick up dust or dirt. And it is inert to the most corrosive agents. For injection molding it is excellent for most plastics, particularly where clarity and deep draw operations are an important factor.

NOTICE TO PURCHASER: User shall determine suitability of product for his intended use and assumes all risk and liability in connection herewith.
