**In the plastics industry, it's common
for molded parts to have defects,
detracting from the quality of the part.**

Manufacturing imperfections such as knit lines, flow lines, and gloss imperfections result in rejected parts, increased scrap rates and rework.

**Fix those flaws in less
than 30 seconds...**

Plastics Flaw Repair Overview

Part rejection is both expensive and time-consuming, but with Per-Fix® flaw repair coatings, you now have the

choice of permanently restoring the part to perfect condition
in less than 30 seconds.
