

AceCare No.6

News for right now...

COMMUNICATING NEWS YOU NEED TO KNOW NOW...

AceCare is our way of reaching out to you with the latest news as it relates to our industry in these uncertain times.

We will use this forum to tell you about products, features, and news from us, and our suppliers as it pertains to our industry during the outbreak.

AceTronic Along With Emitted Energy Helping You Prepare to Return to Work

Infrared thermography can help detect elevated body temperatures which may indicate the presence of a fever. As such, the use of infrared as an adjunctive diagnostic tool to help detect people with a potential fever may contain or limit the spread of viral diseases such as bird and swine flu, coronavirus, or bacterial infections such as SARS.

TempScan Basic & Advanced Thermal Camera Systems

The Enlighten TempScan Basic and TempScan Enlighten Advanced thermal camera systems, which provides capture of skin surface temperature, and the Enlighten Software version 2.0, which provides visualization and reporting functionalities, are intended for use as an adjunct to other clinical diagnostic procedures in the diagnosis, quantifying, and screening of relative skin surface temperature.
