

Introducing a game changer in scale & rust prevention

**Eliminates Rust, Scale & Bio-film.
Treatment for any water system
boiler, cooling closed or open loop.**

What it does...

- Prevents pipe leakage in new pipes, and reduces leakage in older pipes.
- Removes scale build-up and slime and can be installed on any size pipe from 1/2" to 36".
- Removes Biofilms to keep water pipes clean.

How it works...

When water passes through IOREX, it generates static electricity from friction on the surface. When the electric charge becomes high, water molecules are decomposed discharging the electrons to the farthest orbit. **The result changes the water structure**

- Removes harmful bacteria.
- Prevents scale, rust and slime build-up.

to plenty of hydrogen Ions and Hydroxyl Ions.

20 Years Maintenance FREE!

We expect that after installing the IOREX, you'll see a huge reduction in the costs associated with your current method of dealing with water related issues.

Expected ROI - At least a 50% Reduction in Costs after installing IOREX!

- Reduce Cleaning Expenses; huge reduction in chemicals required to treat water.
- Improve Energy Consumption; less water required.
- Install & Forget... Lasts 25 Years
- No Parts to Replace; pipes and other elements won't rust
- Eco-Friendly; join the green movement.
- Faster Cycle Times
- Long pipe life ... Lasts 25 years
- Increases thermo conductivity
