MULTI-PURPOSE LUBRICANT

Removes rust, grease, grime, oil, tar, adhesives, residues, etc. It lubricates sliding and rolling surfaces, chains, rails, and hinges. It penetrates into inaccessible areas. It loosens rust and seized parts.

FEATURES & BENEFITS

Shop Stufff is safe for metals, plastics, and other surfaces. It is usable in both wet and dry applications. It is a natural lubricity and high viscosity without any chemicals. Additionally, its cost effective, no odor, its easy to wash with soap and water.

Stufff lubricant is a premium bio-based penetrating lubricant that easily penetrates into tight crevices, cleans out rust and other debris, lubricates to reduce friction and heat, and protects metal surfaces from wear and corrosion.

Recommended for quickly freeing seized parts and mechanisms. Apply by spraying on or into the desired area. Use on equipment, tools and moving mechanical parts. Typically, only minimal amounts are required to achieve its intended effects.

Stufff lubricant:

- **Penetrates & Loosens Rust**
- **Cleans & Degreases**
- **Lubricates Moving Parts**
- **Protects Against Wear**
- **Protects Against Corrosion**
- **Displaces Water**

SAFE TO YOU, ANIMALS AND THE ENVIRONMENT

As bio-lubricants are derived from renewable resources, their use avoids the upstream pollution associated with petroleum extraction and refining.
